BasicDetails Component

The `BasicDetails` component is a react accordion tab component that renders basic details of a user.

Import Statement

```
import BasicDetails from './BasicDetails';
```

Props

Name	Type	Required	Description
data	object	yes	An object containing the user's basic data.

Example

This example shows how the BasicDetails Component can be used to display user's basic details in a dashboard.

```
import React from 'react';
import BasicDetails from './BasicDetails';

const Data = {
 basicDetails: {
        landlordName: "Rahul Dhibar",
        ownerCategory: "Category1",
        vendorCode: "T000023",
        email: "skytower26@gmail.com",
        mobNumber: "+918555927656",
        address: "J.P. Nagar, Office No.03Ground floor, Bengaluru, Karnataka 560078",
    },
}
```

```
function App() {
  return (
    <div>
      <BasicDetails data={Data} />
    </div>
  );
}

export default App;
```
